

Please do not implement any proposals that would change or lessen the protection we have today with the Telephone Privacy Law. I no longer have to screen my calls, I can now get through a meal at home in the evening without having my to answer more than 5 to 6 calls per evening from telemarketers. 5 X 6 Days per week = 30 calls per week.

My elderly and frail parents were not answering their phone at all because of the telemarketers bothering them and they could not get up and down constantly. This is not good, as they have serious health issues. When I call them to make sure they are getting along ok in the evening, I need to talk to them and not have them NOT answering their phone because of telemarketers.

These people need to keep their business to the normal hours of 9:00 a.m. - 5:00 p.m. I am just as pissed when I get a call promptly at 8:00 AM from one of the telemarketers also!!!.

These telemarketing companies are overbearing and I REFUSE to speak with them at all. I, am sorry, that I rudely say take me off your list and hang up. But many, of them don't remove our names from their list. And then, they sell the list again, and again, and again,

I don't want to lose what we have. It is very important to me and my family, and to my parents (84) years of age.

Sincerely.
